

Who We Are

In 1985, David Sluter started a general contracting company. Focused on bringing integrity, commitment and excellence to every project, the company grew steadily, emphasizing accountability and adaptability. Forty years later, and under the leader-ship under David's son Matt, integrity remains the foundation of everything we do and forms the basis for each client partnership. NEC is a mid-size CM that provides construction services throughout the Northeast Region. New England Construction has a comprehensive staff of engineers, construction specialists, and support personnel—fully dedicated to providing clients with the very best construction experience. Every day we put our Core Values into action for our clients proving we have large company capabilities with a small company feel.

Watertown Mall Renovation

We Value Your Community

A Note to Our Neighbors

To Our Neighbors

As the Watertown Mall renovation phases progress, we will strive to minimize the impact of the construction to you and your family. We know you will be concerned about safety, noise, wayfinding and cleanliness. Although we cannot guarantee that we may not inconvenience you from time-to-time with construction machinery noise and maybe some occasional dust, we will try our best not to do so.

We are dedicated to ensuring a safe environment on our site and in the neighborhood. We ask you to respect the fact that an active construction site is not a safe place for curious children or adults to walk around, investigate or to set foot in. We would appreciate your cooperation in respecting the temporary perimeter barriers and safety signage.

Project Details

Project Overview

NEC will act as the General Contractor for the entirety of the project. This project includes a multi-phased renovation of multiple tenants within the Watertown Mall.

Construction Duration

September 2026-November 2027

Construction Site Hours
